So Many Flights

1/7-11: Taiwan

1/13-3/8: San Francisco

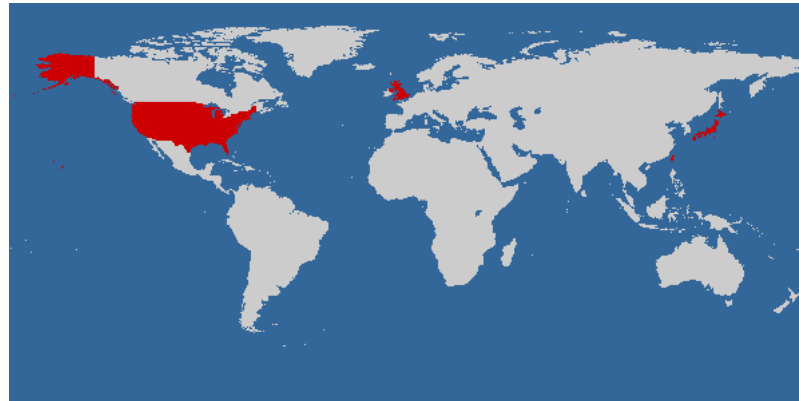

4/27-5/1: Taiwan

6/25-7/6: Chicago, Boston, New York

7/22-28: San Francisco, Portland

8/5-8: Miyako, Okinawa

8/28-9/6: London, Birmingham

Hack on the flight!

Offline commits

```
> svk cp //mirror/plagger/trunk //local/plagger-trunk
> cd ~/svk/plagger-trunk
> svk switch //local/plagger-trunk
...
> svk commit
> svk commit
...
> svk push
```

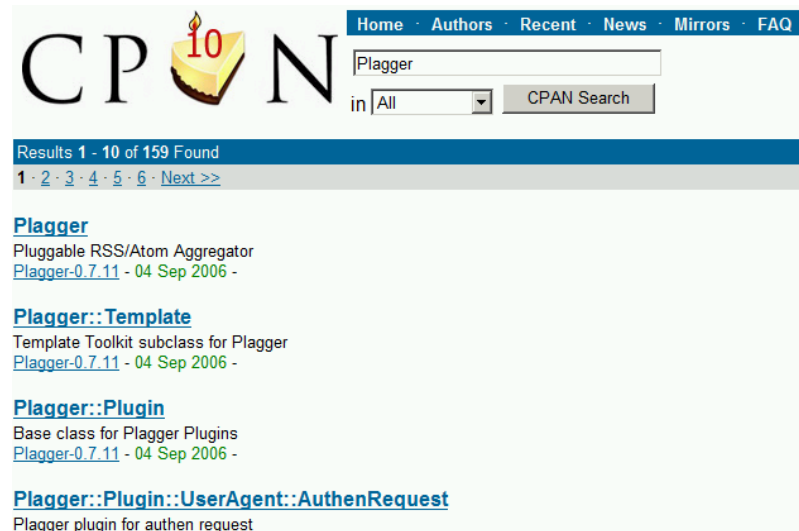

Merging is dead easy

- > `cd ~/svk/plagger/branches/foo`
- > `svk smerge //mirror/plagger/trunk/plagger`
- > `svk commit`

CPAN::Mini

```
> minicpan -r http://www.perl.com/CPAN/ -l ~/minicpan
```

Idea: Search CPAN for minicpan mirror

The screenshot shows the CPAN search interface. At the top, the CPAN logo features a slice of pie with the number '10' on it. To the right of the logo is a navigation menu with links for Home, Authors, Recent, News, Mirrors, and FAQ. Below the logo is a search input field containing the text 'Plagger', a dropdown menu set to 'All', and a 'CPAN Search' button. A blue bar below the search field indicates 'Results 1 - 10 of 159 Found', with a pagination link '1 · 2 · 3 · 4 · 5 · 6 · Next >>'. The search results are listed as follows:

- [Plagger](#)**
Pluggable RSS/Atom Aggregator
[Plagger-0.7.11](#) - 04 Sep 2006 -
- [Plagger::Template](#)**
Template Toolkit subclass for Plagger
[Plagger-0.7.11](#) - 04 Sep 2006 -
- [Plagger::Plugin](#)**
Base class for Plagger Plugins
[Plagger-0.7.11](#) - 04 Sep 2006 -
- [Plagger::Plugin::UserAgent::AuthenRequest](#)**
Plagger plugin for authen request

おまけ Tip

k

```
~
~
rock:/home/miyagawa/svk/plagger> ack foo
t/TestPlagger.pm
298: $foo
299: $foo::bar
303: \$foo
307: ${foo}
309: Meaning you can't use $foo like so:
311: BAR$fooHELLO
318: # interpret in $foo::bar to their values in the string
319: # (but not \$foo::bar)
338: # replace $foo values with their actual values

examples/bloglines2gmail.yaml
18: password: foobar

rock:/home/miyagawa/svk/plagger>
```

```
> perl -MClass::Autouse=:superloader -de 1  
DB<1> $cgi = CGI->new
```

li

```
cm    ./configure && make
dc    cd
e     emacs -nw
l     less
maek  make
h     history
j     jobs
pmf   perl Makefile.PL
mkt   make test
rm    mv !* ~/.Recycled
sl    ls
sx    screen -x
x     exit
```
